Portfolio: <https://wess-portfolio.vercel.app> | GitHub: <https://github.com/Wess-codes>

Passionate Front-End and Full-Stack Developer with 4 years of coding experience, specializing in building intuitive, scalable, and high-performance web applications. Skilled in modern web technologies, API integrations, and UI/UX-focused development. Adept at transforming ideas into responsive, user-friendly digital solutions.

Technical Skills

- JavaScript (ES6+), Next.js, React.js, PHP
- Node.js, MongoDB, Prisma
- REST API Integration, Next Auth, Cloudinary, LocationIQ
- Tailwind CSS, Responsive Design
- Git & GitHub
- M-Pesa Payment Integration
- Agile development practices

Projects

- Portfolio Website (<https://wess-portfolio.vercel.app>)
 - Developed a personal portfolio showcasing projects, skills, and live demos.
 - Designed a minimalist UI optimized for performance and responsiveness.
- CareCrest – Healthcare & Nursing Management System (<https://care-crest.vercel.app>)
 - Built a hospital and nursing automation platform with patient profiles, doctor scheduling, and emergency support.
 - Designed modular, reusable components for scalability.
 - Reduced appointment scheduling time by 40%.

- Swift Styles – E-commerce Platform (<https://swift-styles.vercel.app>)
 - Developed a fashion e-commerce platform with M-Pesa STK Push payments, Cloudinary storage, and admin dashboards.
 - Integrated MongoDB and Prisma to store products, user orders, and analytics.
 - Implemented a responsive, modern UI using Tailwind CSS.
- Astra Design – Web Design Agency Site (<https://astra-design-omega.vercel.app>)
 - Created a modern responsive website showcasing services and projects for a design agency.
 - Improved visual design to attract potential clients.
- Recipe App
 - Developed a food recipe app with global API integration and advanced search filters.
- Productivity Tracker
 - Built a to-do list with productivity analytics to track and complete tasks efficiently.
- Finance Tracker
 - Created a budgeting and expense tracking app with real-time financial analytics.

Education

- BSc. Computer Science, Pan African Christian University – Expected Oct 2026

Experience & Achievements

- 4 years of coding experience developing production-ready web applications.

- Founder of Estrela, a web design company delivering client-focused solutions.
- Built 10+ personal and client projects spanning healthcare, e-commerce, and productivity tools.
